Mince-atarian Mince & Cheese

A Gourmet Meat Free Option

Our Hub Petite Mince-a-tarian Mince & Cheese Pie is made with Quorn mince, so it is ideal for Flexitarians who love pies and want to eat less meat, but still want a “meat like” pie eating experience. It is also suitable for Vegetarians and has been Vegetarian Society approved.

What's so special about Quorn?

Quorn mince, a mycoprotein, is made through a natural fermentation process, much like how cheese is made, but Quorn mince is fermented from non-animal inputs.

It's a great source of protein.

Quorn's mycoprotein is a nutritionally healthy protein source that is naturally low in saturated fat and high in fibre and contains no cholesterol. It contains all nine essential amino acids and a variety of vitamins and minerals including potassium, calcium & phosphorus, and smaller amounts of selenium, magnesium & zinc.

It is great for the health of our planet

Carbon Trust has certified the carbon footprint of Quorn's mycoprotein since 2012, making it the first meat free protein source to have third party carbon footprint accreditation.

Producing Quorn's mycoprotein requires 90% less land, water and carbon emissions than producing animal proteins.
